

Dimo Maint

BUILDING MAINTENANCE MANAGEMENT

DIMO MAINT: YOUR CMMS PARTNER

The range of DIMO Maint's CMMS solutions is specially designed to allow **building managers** to:

- **Reduce environmental impacts and increase the environmental performance** of buildings: air quality, respect of safety standards and regulations,
- **Maintain equipment, structures and other installations in operational condition** enabling services to be provided to the occupants: electricity, air conditioning, heating, lifts, and alarms, etc.,
- **Guarantee the safety of infrastructures** and ensure the monitoring of inspections and regulations,
- **Coordinate and improve maintenance services** in the spirit of ongoing quality improvement,
- **Reduce maintenance costs,**
- **Manage energy** more efficiently.

Ensuring the sustained infrastructure performance, DIMO Maint CMMS plays a key role in the quality and continuity of the service provided:

- Provide a **complete, precise and scalable tree structure** of the equipment and their location on sites (remote or on site),
- **Identify and track all the administrative, technical and regulatory data,**
- **Plan preventive maintenance** in order to avoid disrupting the operation of infrastructures and compromising the quality of the service,
- Manage the **contracts of the maintainers** and monitoring of their operations,
- **Improve communication** with the occupants through a request entry and follow-up gateway.

SOLUTIONS ADAPTED TO THE SPECIFICITIES OF YOUR BUSINESS SECTOR

- **Asset management:** attached documents, preventive and regulatory plans, work tracking, monitoring counters, etc.,
