

Dimo Maint

CMMS SOFTWARE FOR THE CHEMICAL AND PHARMACEUTICAL INDUSTRY

DIMO MAINT: YOUR CMMS PARTNER

The DIMO Maint range of CMMS solutions has been specifically designed to allow businesses from the chemical and pharmaceutical sector to respond to their main concerns:

- **Seek innovation and competitiveness.**
- **Reinforce environmental, security and health regulations.**
- **Modernize and secure** industrial facilities.
- **Manage the energy transition** and evolve towards a sustainable chemistry.

In this context, the sector's industry is ever more oriented towards innovation, correct application of regulations within the company, respect for good practices throughout the chain of production, industrial risks evaluation and management, monitoring of activities and cost control.

The CFR Part 11 module allows DIMO Maint CMMS solutions to comply with the FDA's (Food and Drug Administration) 21 CFR Part 11 regulation requirements:

- **Guarantee and secure access to DIMO Maint CMMS' functions** for the users authorized by the access rights management, encryption and periodical password renewing, non-modifiable nor falsifiable electronic signature.
- **Trace all the records** executed on the database and their evolution to an audit database.

Other functions will specifically interest the sector's industries:

- **Safety regulations management.**
- **Batch management** so as to respond to traceability requirements, guaranteeing that batch numbers are traced for every input/output spare part in order to detect defective parts.
- **Compliance with regulatory controls.**

SOLUTIONS ADAPTED TO THE SPECIFICITIES OF YOUR BUSINESS SECTOR

- **Work request management** through an internet portal (requests from the maintenance, production or quality departments, etc.).
- **Asset management:** attached documents, preventive and regulatory plans, work tracking, monitoring counters, etc.
- **Equipment localization** by view.
- Internal and external resources and suppliers contracts management.
- **Creation of a preventive plan** for technical and power installations maintenance.
- **Technician schedules management.**
- **Spare parts and store inventories management.**
- **Interfaces available with the information system** (ERP, Supervision, M.E.S, etc.).
- **Costs and budgets monitoring and equipment replacement decision-making.**
