

Dimo Maint

FOOD & BEVERAGE MAINTENANCE MANAGEMENT

DIMO MAINT: YOUR CMMS PARTNER

In a context of exacerbated international competition, the food processing industry is subject to **considerable European and international regulatory constraints** (Compliant FDA, CFR 21 Part 11 - IFS - International Food Standard, BRC in Great Britain), while having to deal with constant consumer pressure and new societal expectations. In this respect, the companies of the food processing sector need to:

- **Ensure the hygiene, the safety and the traceability** of food,
- **Certify the quality** of food,
- **Have access to the best practices** in the processes, the quality organisation (HACCP) and the **control of risks**.

A true **maintenance work scheduling and traceability tool**, DIMO Maint's CMMS solutions specifically enable manufacturers in the sector to:

- **View, organise, schedule and execute** the management of the maintenance of their production tool, to all stages and critical points of the food processing chain,
- **Centralise in a single repository** a detailed description of all equipment for the production line and of all related operations, especially regarding the compliance with the procedures,
- **Schedule an efficient maintenance**, in order to reduce the risk of breakdowns, remove the production shutdowns and increase productivity so the competitiveness,
- **Ensure the preventive maintenance**,
- **Manage the diagnostics**,
- **Manage the criticality analysis**.

SOLUTIONS ADAPTED TO THE SPECIFICITIES OF YOUR BUSINESS SECTOR

- Work request management through an internet portal (requests from the maintenance, production or quality departments, etc.),
- Asset management: attached documents, preventive and regulatory plans, work tracking, monitoring counters, etc.,
