

Dimo Maint

HEALTHCARE MAINTENANCE MANAGEMENT

DIMO MAINT YOUR CMMS PARTNER

The range of DIMO Maint's CMMS solutions is specifically designed to **meet the needs to manage biomedical and technical equipment** (buildings, technical installations...):

- **Manage the biomedical equipment** by recording the alerts and reporting incidents,
- **Carry out the physical inventories** by bar codes of rooms, floors, buildings...,
- **Manage the multi-technical operations** (heating system, etc.) and those related to security of the building,
- **Ensure the traceability of maintenance operations** on the equipment,
- **Manage the maintenance activity.**

By ensuring the performance of the equipment used, DIMO Maint's CMMS plays a **key role** regarding the interventions tracking and enables you to:

- **Facilitate communication** with the health care services through a portal for the work requests on equipment,
- **Reduce the costs of breakdowns,**
- **Reduce** the equipment and spare part procurement **lead times,**
- **Reduce the operation time,**
- **Improve the monitoring** of the preventive and regulatory maintenance,
- **Increase the availability of the equipment,**
- **Improve** the cost control and the monitoring of the subcontracting,
- **Assist in the decision making and the renewal of equipment.**
