

# COMPUTERISED MAINTENANCE MANAGEMENT SYSTEM (CMMS) SOFTWARE FOR INDUSTRY

Dimo  
Maint

## DIMO MAINT: YOUR CMMS & AFTER-SALES SERVICE PARTNER

Growth, innovation and operational excellence are the main concerns of companies in the manufacturing sector. Businesses find themselves catapulted into a new era driven by major technological advances ("IOT", "Robotics", 3D Printing, Augmented Reality, Artificial Intelligence, etc.), coupled with new market forces (hyper-connected consumers, global competition, a shortage of skilled labour, and complex regulations governing products and markets).

### To remain competitive, manufacturing companies must:

- Anticipate and remain responsive to legislation in real time
- Develop new innovative products
- Transition their current offering to offerings that include products, services and content
- Optimise their production lines in order to limit waste, and achieve just-in-time manufacturing of unparalleled quality
- Improve productivity and collaboration while reducing costs
- Support staff (training, mobility)

### DIMO Maint's CMMS has been specifically designed to meet the IT requirements of the maintenance activities of businesses:

- Increasing equipment uptime
- Providing traceability and analysis of recurring breakdowns
- Avoiding supply shortages for critical spare parts
- Recording work conducted
- Producing technical figures (breakdown rates, calculating MTBFs)
- Scheduling
- Assisting with implementing and following certification processes

At the heart of these challenges, equipment maintenance remains a strategic concern for businesses. Its purpose is to ensure the seamless operation of production tools. The aim is not only to "repair" but also to maximise equipment uptime, while ensuring satisfactory levels of safety. It generally favours the involvement of technicians before calling a production stop by scheduling required services in advance and outside of machine operating hours.

## A SOLUTION SPECIALLY DESIGNED TO SUIT THE SPECIFIC NATURE OF YOUR BUSINESS ACTIVITY

- Management of equipment technical records: related files, diagrams, photos, preventative and regulatory plans, traceability of work conducted, monitoring of meters, measurements (pressure/temperature), etc.
- Location of equipment through geographical and functional tree diagrams.
- Implementation of a preventative plan for production equipment maintenance, and technical and power installations.
- Management of internal and external work conducted as part of service contracts.
- Management of technician schedules and conflicts related to work and staff availability.
- Management of spare parts stock.
- Content of operations through operating ranges.
- Interfaces available with main supervision levels and the main ERPs in the market
- Monitoring of costs and budgets, support with decision-making and equipment upgrading.

### About DIMO Maint

A fully-owned subsidiary of DIMO Software, DIMO Maint is currently one of the key players in the CMMS and After-Sales Service market with an active customer base of 4,000 clients including more than 1,500 projects managed internationally.

# Dimo Maint

DIMO Maint and its network of preferential distributors remain at your disposal to present their maintenance solutions to you.

## SOME OF OUR CLIENTS

### • The Automotive Industry

#### The Czech Republic

Adient Czech Republik k.s. (Ceska Lipa & Roudnice)

Adient Strakonice SRO

MC Syncro Kolin

#### Poland

Adient foam Sp Zoo O.O (Zory)

Adient Seating Poland Sp Zoo (Swiebodzin)

Adient Poland Sp Zoo (Siemianowice Slaskie)

#### Austria

Adient Automotive GmbH & CO OG (Mandling)

#### Germany

Adient Automotive Components GmbH (Hilchenbach)

Adient Metal Forming Technologies GmbH (Solingen)

Adient Components LTD & CO. KG (Rockenhausen)

MC Syncro Supply GmbH (Böblingen)

MC Syncro Supply GmbH (Köln)

Radsystem Rastatt GmbH

Radsystem Leipzig GmbH

Radsystem Mosel GmbH

Radsystem Hannover GmbH

#### Hungary

MC Syncro Hungary KFT

Adient Mezolak Kft

#### Slovakia

Adient Slovakia s.r.o (Lucenec)

Adient Seating Slovakia s.r.o. (Bratislava)

#### France

Comau

### • The Food Processing Industry:

COPAG – Coopérative Agricole Taroudant (Morocco)

Bariatrix Nutrition (Canada)

Limagrain (France)

Panzani (Cameroon & France)
