

Dimo Maint

HYDROCARBON SECTOR MAINTENANCE MANAGEMENT

DIMO MAINT: YOUR CMMS PARTNER

The DIMO Maint range of CMMS solutions has been specifically designed to meet the needs of hydrocarbon sector professionals wishing to:

- **Reduce their environmental impacts and to increase the efficiency of their infrastructures:** environmental quality, compliance with standards and regulations,
- **Increase equipment reliability:** close equipment and infrastructure monitoring with sophisticated work prioritization and control, for example, of the risk of Fugitive Emissions (valves and pumps),
- **Control costs and ensure that their activity remains profitable:** maintenance cost monitoring and budget estimates,
- **Manage hydrocarbon stocks, flow rates and consumption,**
- **Certify the maintenance of equipment important to safety in order to ensure that regulatory safety obligations.**

As a guarantor of the upkeep of infrastructure performance, DIMO Maint CMMS software plays a key role in the quality and continuity of the service rendered:

- Possess a **complete, precise and open-ended tree-view** of **equipment and locations** on the site(s) (whether remote or not),
- **List and monitor all administrative, technical and regulatory data,**
- Manage corrective and preventive maintenance,
- **Trace all incidents and capitalize on experience** acquired from previous servicing operations,
- **Manage provider contracts, monitor their work and assess suppliers,**
- **Provide key indicators:** failure rate, unavailability level,
- **Monitor maintenance costs and planning budget.**

SOLUTIONS ADAPTED TO THE SPECIFICITIES OF YOUR BUSINESS SECTOR

- **Equipment tree-view:** user-friendly, accessible and usable by maintenance technicians,
- **Equipment management:** catchment, gauging, measurements, pumping, detection, etc., maintenance of infrastructures (service stations, tanks, oil depots, networks, gas containers, etc.) and vehicles (lorries, etc.),
- **Critical equipment maintenance management,**
- **Events database** including maintenance, regulatory inspections (fire risk, etc.), incidents and their processing,
- **Sub-contracting contract management,**
- Powerful **search tool** able to find information in just a few clicks,
- **Knowledge of maintenance costs:** labour, parts and external services.
