TRANSPORT INFRASTRUCTURES MAINTENANCE MANAGEMENT

DIMO MAINT: YOUR CMMS PARTNER

Maintenance management, by generating savings, quality of service and efficiency, enables companies to meet the major challenges faced by **transport infrastructure management professionals** (airports, ports, roads, motorways, bridges, tunnels, railways, etc.) to:

- **Reduce environmental impacts and increase performance of infrastructures:** environmental quality, compliance with standards and regulations,
- **Increase equipment reliability while maintaining an optimum safety level:** ensure user safety and quality of service while ensuring rigorous equipment monitoring (multi-site),
- **Guarantee continuity of service,**
- **Control costs and ensure activity profitability:** precisely monitor budgets and infrastructure maintenance.

As a guarantor of the facility safety and reliability, the DIMO Maint CMMS software has been specially designed to enable transport infrastructure management professionals to:

- **Manage an equipment stock** and increase performance, while maintaining an optimum level of reliability,
- **List and locate equipment in tree-view form,**
- **Manage corrective maintenance,**
- **Provide preventive maintenance and follow-up of regulatory servicing operations,**
- **Optimise the coordination of material and human resources,**
- **Trace servicing operations and on-going or completed work,**
- **Extract extremely precise statistics:** most frequent failures, time spent per technician and per type of equipment, number of servicing operations, etc.

SOLUTIONS ADAPTED TO THE SPECIFICITIES OF YOUR BUSINESS SECTOR

- **Equipment tree-view:** user-friendly, accessible and usable by maintenance technicians,
- **Equipment management:** lifting, transit, lighting systems, sign posts and building maintenance (car parks, airport terminal, hangars, roads, networks, etc.),
- **Critical equipment maintenance management,**
- **Events database** including maintenance, regulatory inspections (fire risk, etc.), incidents and their processing,
- **Sub-contracting contract management,**
- Powerful **search tool** able to find information in just a few clicks,
- **Knowledge of maintenance costs:** labour, parts and external services.

About DIMO Maint

100% subsidiary of DIMO Software, today DIMO Maint is the leader on CMMS market serving more than 3.500 customers and has lead over 1.100 projects worldwide.
